I. Launching the application
- Type in the URL (http://138.68.238.53:8080/PLGPA/) to access PLGPA in a web browser.

II. Navigation
- Navigate using a mouse or a touch screen.
- To zoom in and out on a mobile device, pinch the screen. On a desktop computer, scroll.
- Click on a marker cluster to decluster it and access individual clusters (shown below).
- Click on a marker to open a popup and view its relevant thumbnail image.
- On a mobile device, press and hold a button in the popup to view its description.
- On desktop, hover over a button in the popup to view its description.
III. View the full image
- Click on the thumbnail to redirect to the CONTENTdm website to view the image in its original resolution.

IV. Interactivity - Social Media buttons
- Select the Facebook button in the popup to share the image thumbnail and comment.
- Select the Twitter button in the popup to share a tweet about the image along with the image name.

V. County Service Locator

- Select the County Service Locator button to view county services near the selected marker in a new window.
- Click on a service location in the service locator to see detailed information (Example below).
VI. Navigating to an image’s location

- Click on the navigation button to open Google Maps in a new window and navigate to the location of the image (On a mobile device, the Google Maps application will open, if installed).

VII. Search

- Type in an address to quickly center the map at a new location.
VIII. Map layers

- Click on the layers button at the top right corner of the map to view and select different map layers. Examples of layer selections are shown below.

  ● Streets layer

  ![Streets Layer Example]

  ● Grayscale layer

  ![Grayscale Layer Example]
- Aerial layer

- Boundaries
IX. Locate Me
- Click on the Locate Me button near the top left corner of the map to center the map at the user’s current location.
