cs3337 Syllabus Requirement

I, ________________________________ hereby state that I have read the syllabus in detail. All questions I have had, if any, have been clarified with the instructor. I understand all of its requirements and in particular I understand the three most prominent requirements:

1. Mandatory 100% attendance. Maximum excused class time of one week with a corresponding grade penalty of at least one step below the average grade obtained in class.

2. I am fully aware of the “no excuse” condition for the semester project presentations. Project presentations take place typically one or two weeks before Finals. This is a requirement causing a no-credit (NC) for a final grade for this semester.

3. I attest that I possess the required programming skills to write adequate code for the class project.
